FINDING THE RIGHT DEAL
and the best entrepreneurs to lead them through growth is the name of the game in venture capital. Rapidly evaluating investment ideas, and making sure you don't lose track of action items, call-backs, and due diligence can be just as important as negotiating a tight term sheet for the right deal.

That's why so many Venture Capital firms have turned to salesforce.com® to help manage their deal flow.

Based on dozens of implementations at investment firms across the US, SalesLogistix has created the **Salesforce for Venture Capital BlackJack** package, customizing the Salesforce.com platform to:

- ✓ Speed user adoption
- ✓ Streamline data entry
- ✓ Track deals, referrers, intermediaries, LPs, funds, and executives
- ✓ Generate weekly “deal sheets,” deal-flow dashboards, and quarterly analytics

Designed for firms with fewer than 10 investment professionals, SalesLogistix Blackjack packages address the specific requirements of your firm. Our certified consultants will work with you to develop and tailor solutions that address your problems and accelerate your success. We're sure that with our implementation packages, one is just right for you and your business.

- Deal Pipeline
- *Investment* and *Fund* Custom Objects

We will also work with your administrators so that we can assure that when we leave, they are trained and understand the configuration as well. Our cost for this package is \$9995*

PLATINUM DEPLOYMENT

This 48 hour package provides much more value to our customers who are looking to get more operational advantages from salesforce.com. Our Platinum package provides all of the features of our Gold package, plus:

- 2 Custom Objects from the Venture Capital configuration
- 2 User-Specific Page Layouts
- 3 Workflow Rules or 3 extra reports / dashboard components
- 2 HTML Mail Templates
